

Hello Again Everyone,

A friendly reminder for employees Eurocan's Employee Family Assistance Program (EFAP) services will end as of April 30, 2010.

For Community & Social Services or Health & Wellness Services needs within the Kitimat and Terrace communities, please reference the attached electronic copy of the Kitimat & Terrace Community Services Guide for contact and detail information (pages 9 to 13).

This guide was designed to create one source of information as a resource to workers in transition for special programs, employment services, community and social services, worker adjustment and retraining opportunities in Terrace and Kitimat as well as information regarding government funding and financial services.

It is important for employees and their families to understand what resources and services are available to them for re-employment or re-training needs, social or financial needs, etc. Take a few moments to review the guide to ensure you are familiar with the local services and resources available for you and your family.

Please call or email me if you should need any further information or assistance.

Warmest regards,

Carole Gagnon
Transitions Co-ordinator (Kitimat/Terrace)
